

Migrate settings from MoveIt2 → Limagito

1. Gui version

- Install Limagito using the Lite Setup.
- Copy the following files from the MoveIt2 directory to the Limagito directory
 - License.key (License file)
 - MoveIt2.ini (MoveIt2 settings)
 - All .xml files (Language & Rename settings, File memory)
- Replace MoveIt2 → Limagito for all files in the Limagito directory.
 - MoveIt2.ini → Limagito.ini
 - MoveIt2.RegEx1.xml → Limagito.RegEx1.xml
 - MoveIt2.RegEx2.xml → Limagito.RegEx2.xml
 - .. → ..
 - MoveIt2.Mem1.xml → Limagito.Mem1.xml
 - MoveIt2.Mem2.xml → Limagito.Mem2.xml
 - .. → ..
- Done ☺

2. Service version

- First migrate the Gui settings from MoveIt2 → Limagito.
- Start Limagito and use the Service Export to generate the Limagito service settings.
- Done ☺
